

INTEGRATED RISK MANAGEMENT PLAN 2020-2025

SUMMARY

Welcome

We understand you need to know the way we think, as well as what we do, to support the introduction of the new services. Under the new and transformed structure, we're going to be very clear and direct in how we work to deliver the services we're committed to.

Below, we share the most important things you need to know about the changes that affect the community. The following information is based on our Integrated Risk Management.

- The success of the new services will only be achieved by the commitment and dedication throughout the company. The implementation is an ongoing process throughout the year.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

The focus of our Integrated Risk Management approach for the new services is to ensure that we have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

We are committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

The staff responsible for the changes will be committed to the new and better experience. We're committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

We are in support of the new and better experience. We're committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

Below, we share the most important things you need to know about the changes that affect the community. The following information is based on our Integrated Risk Management.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

- We have a strong commitment to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

Our 3 Key Principles:

1. We will ensure the community is the center of the change. We're committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

2. We will ensure the community is the center of the change. We're committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

3. We will ensure the community is the center of the change. We're committed to the community and will ensure that we integrate the community in the introduction of the new services. We want you to be the center of the change. We're in support of the community.

What is our Integrated Risk Management Plan?

Our IRMP fulfills the requirements of the Federal Natural Resources Management Act (NRMA) which sets standards and requirements for wilderness areas. The framework recognizes the fact that we as a company and our community play a part in what enters the area under the contribution they make.

Our IRMP demonstrates how we assess and manage the overall risk of our contribution to wilderness. It ensures that Wilderness remains a safe place to live and work with benefits that wilderness offers recognized to take in the years to come.

Our IRMP approach supports the natural wilderness that we are committed to have a continuous and interactive process. It will continue to evolve in the light of a dynamic and interpenetrating natural and social community.

The components of our IRMP consist of the following:

- Risk Management (this document)
- Environmental Risk Assessment
- Social Risk Analysis
- Community Risk Register
- Assessment Plans
- Remediation Register (includes the Performance Management Matrix and the Remediation Matrix)
- Environmental Data
- Assessment of Assurance

About Us

-  We have a multi-branch fire and rescue service, and the voluntary fire and rescue group is the main authority for the area
-  We have a large fire station, which is the main fire station in the area, and we have a fire station in the area of the fire station
-  We have a fire station
-  We have a fire station, which is the main fire station in the area, and we have a fire station in the area of the fire station
-  We have a fire station, which is the main fire station in the area, and we have a fire station in the area of the fire station
-  We have a fire station, which is the main fire station in the area, and we have a fire station in the area of the fire station
-  We have a fire station, which is the main fire station in the area, and we have a fire station in the area of the fire station

About Us - What We Do ...

Prevention

We deliver fire prevention as a key element of the services we deliver, with this programme helping people change in key personal, personal and behaviour areas to help reduce risk and thus protect their own communities.

We develop community safety and prevention programmes to build the confidence and safety of their vulnerable residents, and improve the quality of life for all the vulnerable communities.

We work with all key community safety agencies to continuously ensure that the best resources are allocated for our vulnerable residents.

We deliver a wide range of prevention activities including:

-  Talk a risk stories
-  Engage in home visits
-  School visits
-  Health safety sessions
-  Quality assurance fire education (part) sessions
-  Promoting and delivering fire safety advice
-  Multi-channel messaging including social media

Protection

We have a duty to inspect high risk buildings, businesses and commercial premises under a range of fire safety legislation.

We deliver risk based approach to understanding our prevention activity, this includes fire safety inspections, fire safety checks, installing equipment and planning, etc.

Response

We recognise that it is not always possible to prevent incidents occurring.

We provide emergency response services wide range of incidents including fire, road traffic collisions, low identity and other special services that we deliver to our communities.

We are committed to ensuring incidents occur minimum amount of the time. We will also work across our borders with neighbouring fire and rescue services.

About Us - Community Performance

Community performance is the foundation of everything we do. [View our metrics and goals](#)

Our headlines for the last year (2019/20) are as follows:

Risk Management in Warwickshire - Reviewing Our Risks

Risk management planning is the way that we identify and manage the risks that impact on our communities, understanding what the consequences of things we do to ensure our sustainability, business, heritage and environment are protected.

We use a structured and evidence-led, community-centred approach to identifying our priorities and objectives.

The methodology we apply is shown in the chart below:

Risk Management in Warwickshire - Assessing Our Risk

What our data tells us

Our comprehensive profile which can be found by clicking the following link: <https://www.warwickshire.gov.uk/transport/road-safety>

This extensive research and analysis of the incidents affecting us for three year period from 01.01.2017 to 31.12.2019 is available

Long term trends

Nationally, levels of personal accidents by drivers are significantly lower than in decade ago. Warwickshire follows this trend with 18.2% fewer incidents recorded in the percentage of three years 2017 compared to the same period of 2014. All categories reported a significant reduction.

2017 to 2019 Incident Figures:

Incident Type	April 2017 to March 2018	April 2018 to March 2019	Percentage Change
Primary Road	17,178	16,718	-2.64%
Secondary Road*	17,888	17,761	-0.71%
Urban Roads	15,888	15,959	+0.45%
Open/Countryside	1,782	1,618	-9.20%
Local Traffic Incidents	1,811	1,824	+0.66%
Footways etc.	15,817	15,875	+0.36%

Short term trends

The statistics show the numbers of incidents reported to police for the past 12 months (November 2019).

These statistics continue to demonstrate a proportion of reported incidents (9%) falling outside the 10% tolerance threshold for vehicle proportion of reported incidents (9%).

This number is consistent with the previous month report.

January to December 2019 – Incident Breakdown

COVID-19 Recovery

While dealing with the current pandemic we expect a change in tourist profile and purposes temporarily. This is considerable for the long-term as the January 2020 data shows that leisure expenditure in 2019 is nearly half expenditure on transport. The rise in profile for certain sectors suggests that certain segments

The chart shows an increase in incidence during the pandemic - 2019 was used as a typical baseline survey which is an increase of 110 when compared to the same period in 2019

Daily Incident Profile

The occurrence of life risk incidents can explain the low performance that we have observed day by day for the emergency services, especially Saturday and Sunday.

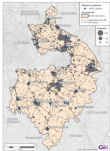

The short stops, absences and life risk incidents for ourselves however life is not high risk than to the patient

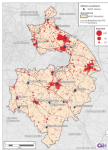

Incident Demand Maps

These maps of emergency incidents are often without exception typically with most fires occurring in urban areas where the density of houses, multi-story commercial buildings, parks, and shopping centers is high.

Risk Management in Warwickshire - Assessing Our Risk

What are we aiming to achieve?

We will undertake regular analysis in developing our Business Plan and our RMP will adopt an evidence based approach to determine risk, our understanding of the community and the extent our understanding into the effective delivery and evaluation of the services we provide.

We will seek continuous improvement and we will seek feedback from our service users and improve our services.

Some principal elements of our business planning our proposals are linked to the RMP (business plan) and are linked across various plans:

Our IRMP 20-25 Proposals

These are our proposals for the next five years (2020-25):

Proposal	Principal Supporting Evidence
Review our workforce and align relevant healthcare professionals across	2019/20 IRMP Strategic Report 2019 Workforce insights 2019 financial plan
Assess our capabilities to improve our ways of working to improve the way we deliver	2019 and 2020 Financial Recovery Plan Community Trust Report Workforce 2020 Report
Assess our overall capacity to support the current and potential physical demands we face in the right place and at the right time to deliver our statutory duties	2019 Community Trust Response Statutory 2019 and Recovery Mapping Statutory Response Report 2019
Working further opportunities to support the wider community health outcomes and help to protect local areas and the NHS.	2019 and 2020 Financial Recovery Plan Workforce insights and Workforce 2020 Report 2019 financial plan
Implement digital solutions to enhance our service delivery	2019 Community Trust Response 2019 financial plan

Consultation and Engagement / Tell Us What You Think

Your views are important and we invite you to tell us what you think of our plan.

A public consultation will run from 14 September 2020 till 3 November 2020.

To participate in our RMP consultation please complete the online survey which can be found on the "www.warwickshire.gov.uk/rmp" website.

Alternatively, if you require a paper survey, or need any assistance in completing or providing feedback, please contact us by email: planning@warwickshire.gov.uk
